DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2-4, 6, 8, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. In independent claim 2, the phrase "forming, on a surface of the substrate, a first image using a pearl pigment- the first colorant" is unclear, rendering claim 2, and claims dependent thereon indefinite. Specifically, it is not clear what is meant by the term "pearl pigment-the first colorant."

5. Claim 8 depends from a cancelled claim. Accordingly, the scope of this claim cannot be determined and it is considered to be indefinite.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1775

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1-4, 9-13 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Masafumi in view of Patel for reasons of record in the Office Action dated 06/02/06.

8. Claims 6, 14-16 and 18-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Masafumi in view of Patel, as applied above, and further in view of Ohnishi for reasons of record in the Office Action dated 06/02/06.

Response to Arguments

9. Applicant's arguments filed 12/04/06 have been fully considered but they are not persuasive.

10. Applicant first argues that the primary reference, Masafumi fails to teach a second colorant layer. This is not persuasive, since Masafumi teaches that layer 4 disclosed therein may contain a colorant (see abstract). Accordingly, this argument is without merit.

11. Next applicant argues that Patel is nonanalogous art. In response to this argument, it has been held that a prior art reference must either be in the field of applicant's endeavor or, if not, then be reasonably pertinent to the particular problem with which the applicant was concerned, in order to be relied upon as a bases for rejection of the claimed invention. See *In re Oetiker*, 977 F.2d 1443, 24 USPQ2d 1443 (Fed. Cir. 1992). In this case, the prior art references are concerned with achieving maximum brightness from compositions containing pearlescent pigments. Accordingly, Patel form a proper bases for rejection of the claimed invention, since Patel is concerned with the problem with which applicant is concerned regarding the brightening agent.

Art Unit: 1775

12. In light of the above, applicant's arguments have been fully considered, but are not found to be persuasive.

Conclusion

13. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
